

INVITATION

“NETWORK SCIENCE IN FULL-SPECTRUM OPERATIONS”

USMA-ARI Workshop

April 18-20, 2007, United States Military Academy, West Point, New York

Sponsored by the:

Army Research Institute
5001 Eisenhower Avenue
Alexandria, VA 22333
&
Network Science Center
United States Military Academy
West Point, New York 10996

The 2007 USMA-ARI Network Science Workshop will explore current Network Science as applied to Full-Spectrum Operations. The theme explores the challenges in understanding and predicting human & cyber networks given the rapid decline of the rigid hierarchical structure. Our challenge is to identify directions for basic and applied research that have break-through implications for near term applications.

You are personally invited to bring an oral presentation. Select presentations will be further invited to submit a book chapter for inclusion in the workshop compendium and receive an honorarium for your contribution.

In line with the challenge, we intend to foster collaborative opportunities between the nations top academic, government, and industry researchers.

Single page submissions must contain the following **information**:

- 1) Submission title (not to exceed 12 words)
- 2) Author(s) and affiliation(s)
- 3) 250-word abstract concisely describing the intended presentation
- 4) Primary point of contact information (email address, phone)

Send your submission via email or ground mail **by 30 March 2007** to either:

Dr. Daniel Horn
Army Research Institute
2511 Jefferson Davis Hwy
Arlington, VA 22202
Dan.horn@us.army.mil
